## FIGHTING AT ENTRANCE

Firing Was Continuous, But at a  
Respectful Distance No Ships  
Were Visible.Russians Score Against a Detach-  
ment of Japanese On the  
Yalu River.St. Petersburg, April 13.—According  
to telegraphic advice a bombardment  
of Port Arthur and a fight on the Yalu  
are expected momentarily.

Che Foo, April 13.—The captain of  
the steamer Locksman, which arrived  
today from New Chwang, reports that  
he heard heavy firing between 5 and 7  
o'clock this morning in the direction  
of Port Arthur. The firing was con-  
tinuous, but no ships were visible.  
From the direction of the sound he  
judged that there was fighting at the  
entrance to Port Arthur. The Locks-  
man was the last foreign merchant  
vessel to leave New Chwang, sailing  
at the same time as the British gun-  
boat Espiegle, at 1 o'clock yesterday  
afternoon.

## CLEANING

House is one of the duties that a weak woman looks forward to with dread. As a rule, she knows that she must pay for the over-strain with days or weeks of womanly suffering. Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It cures the womanly diseases which undermine the general health. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

"I took two bottles of your 'Favorite Prescription' and two of the 'Golden Medical Discovery' and am feeling well," writes Mrs. Dan McKenzie, of Lorway Mines, Cape Breton Co., Nova Scotia. "I had uterine trouble, also pain in the side and headache. After taking your medicine I was cured. You may publish this or use it in any way you think best, as I cannot speak too highly of Dr. Pierce and his medicine."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

FREE. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

A TYPICAL COSACK.

of the Yalu, opposite Wiju. The sharpshooters landed on the island Samalind and surprised a patrol of fifty Japanese scouts just as the latter were approaching the east side of the island in three boats. The Russians tossed the Japanese to land and then fired on them. Nearly all the Japanese were shot, bayoneted or drowned and their boats sunk. The Russians sustained no losses. Non-Commissioned Officers Leuchkine and Souhaschov distinguished themselves in the fight. On the following day the Japanese lowered their flag at Wiju and their outposts, which lately have been seen, fell back. On the night of April 9 four Russians crossed the Yalu to Yomampo and made toward a Russian village, where they found a squadron of Japanese cavalry. They remained there twelve hours, when they were betrayed by Koreans and were obliged to swim the river, their boat having struck on a sand bank. One soldier lost his life. The Japanese pursued the Russians in a boat, but were in turn attacked by a Russian boat which had come to the rescue of the swimmers. The Japanese were all killed and their boat sunk.

## ALL VOTED DOWN

Democratic Amendments to  
Post Office Bill Were  
Rejected.

## MEASURE THEN PASSED

Sharp Colloquy Occurred In the Sen-  
ate Between Mr. Teller and  
Mr. Hopkins.The Latter Uses Language Which  
the Former Declares Is  
Insulting.

Washington, April 13.—A sharp colloquy occurred in the senate between Senators Teller and Hopkins, growing out of the reading by Mr. Teller of a letter written by the late General H. H. Thomas of Chicago, attacking civil service administration of the treasury department. Mr. Hopkins took exception to the quoting of the letter and declared that the Colorado senator would be willing to accept "authority from the slums," whereupon Mr. Teller declined to yield further, declaring Mr. Hopkins' reference to the slums to be insulting. The incident occurred in connection with the discussion of the postoffice appropriation bill. That measure was under discussion during the first half of the session and was passed, all amendments offered by the Democrats being voted down.

The bill providing a form of government for the Panama canal zone was taken up, but debate on it had not begun when the senate adjourned for the day.

## SAYS HE NEVER

G. Cleveland Denies That He Dined a  
Negro.

Washington, April 13.—The race question again was injected into the proceedings of the house of representatives when Mr. Scott of Kansas delivered a long address in which he referred to his previous statement that it was current in Kansas that ex-President Cleveland had dined C. H. J. Taylor, a Kansas negro politician. He read several letters from Kansas citizens that he had received such social attention from Mr. Cleveland. He also said that Mr. Cleveland, while governor of New York, had signed a bill providing for mixed schools.

In a spirited reply Mr. Williams (Miss.), the minority leader, defended the attitude of the South toward the negro and said that discussion of the race question by the Republicans was an old game by which when the Republican party found itself confronted with issues that threatened its supremacy it began to wave the bloody shirt.

At the instance of Mr. Bartlett of Georgia, a letter from ex-President Cleveland was read, denying that he had ever dined a negro. Mr. Bartlett also declared Judge Parker of New York to be the man whom the Democrats will nominate for president.

## JOHN BULL ALERT

Nicaragua's Infringement of Treaty to  
Be Looked Into.

Washington, April 13.—Friction, it is learned, is again developing between Great Britain and Nicaragua over the Mosquito coast, which since the early 60's has been a matter of contention between the London government and the Central American republic. It is said that the London authorities once more will protest against any violation of the Zeledon-Wike treaty of 1860 by the terms of which her Britannic majesty agreed to recognize the sovereignty of the republic of Nicaragua over the country hitherto occupied or claimed by the Mosquito Indians, the British protectorate over this territory ceased and in return the Nicaraguan government pledged itself to assign the Mosquito reservation to the Indians and

"You certainly have got a dandruff cure and hair grower in Rexall '93' Hair Tonic. I had dandruff so badly that I hated to go among my friends. I washed and shampooed my hair, but in a day or two it would be as bad as ever, the itching at times was awful and my hair was falling out. I saw Rexall '93' Hair Tonic in the drug-gist's window, and on his advice and guarantee I bought it. Almost immediately my hair took on life and new color, the dandruff disappeared and I haven't had a trace of it for weeks.—CARRIE SPILCHER, 74 West 124th Street, New York City.

grant them certain rights of local autonomy. While the negotiations for a Nicaraguan canal were pending during the last few years the British government was averse to pushing the Mosquito question. With the ratification of the Hay-Bunau-Varilla canal treaty the London authorities believe the time auspicious to settle the question with Nicaragua.

The sole wish of the British government, it is stated, is to bring to a realization of the treaty obligation she is under to deal with the Mosquito Indians with justice and give to them those rights which Nicaragua promised they should at all times enjoy.

## A Short-Lived Strike.

Chicago, April 13.—The strike at the plant of Swift & Co., here, lasted but ten minutes. Five hundred cattle butchers walked out. Almost at the moment, however, word came from a meeting then in session between the union officials and the employers that a settlement had been reached, and the men returned to work.

## Put It Out of Business.

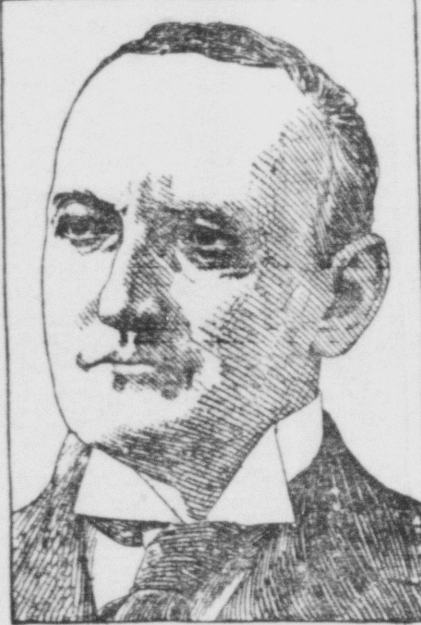

Chicago, April 13.—Linemen sent out by the Chicago Telephone company destroyed a switchboard governing telephones which, it is alleged, were used for gambling purposes. This switchboard, according to the police, was part of one of the biggest "clearing houses" for race information existing in Chicago.

## A MISAPPREHENSION

Caused Unnecessary Publicity, Says  
the McCall Report.

Washington, April 13.—The report of the McCall committee, appointed to look into the report of the postoffice committee of the house in so far as related to the charge therein contained affecting members of the house contained one interesting conclusion.

"That part of the report involving members which related to leases contained more information than was asked for by the house committee on post-offices and postroads," says the Mc-

SAMUEL MCCALL.

[Chairman of house special committee.]

Call report. "What was called for was a list of the cases where leases had been cancelled and renewed at a higher rental on the recommendation of members. Instead of this a list was prepared under the direction of Fourth Assistant Postmaster General Bristow, purporting to give all cases where members of congress had made any recommendation with regard to the leasing of premises or allowances for rent, fuel and light in connection with postoffices."

Continuing, the report says: "Precisely how this came about is not clear. The chief inspector testified that he told the fourth assistant that he thought the inspectors were doing work not called for, but that Mr. Bristow replied that he had talked with Mr. Overstreet and knew just what he wanted, and he instructed Mr. Cochran to continue the work as it was being done."

"On the other hand Mr. Overstreet states that the only communication upon the subject he had with Mr. Bristow related to the leases from members. Apparently Mr. Bristow misunderstood Mr. Overstreet and applied what was said to all the leases involved. But no duty devolved upon the committee to use more than it desired not to make the whole or any portion of it public."

The committee concludes that the impression made upon the minds of the members of Mr. Overstreet's committee by the publication in a newspaper of the fact that the report was in its possession, together with the inference that it contained things which were a serious reflection upon members, was the reason for its publication by the committee. "It thus came about," the report continues, "that the report was published containing the names of many members of congress which never should have been associated with the so-called charges set forth in the Hay resolution."

## Court Not Ready to Act.

Ouray, Col., April 13.—Sheriff Corbett will make no attempt for the present to serve the warrants at Telluride on Adjutant General Sherman M. Bell and Captain B. Wells, adjudged guilty of contempt of court for disobeying the habeas corpus order of Judge Theron Stevens and refusing to bring President Moyer of the Western Federation of Miners into court. Judge Stevens has gone to Gunnison, where he will hold court for two weeks, and the sheriff will await his return here at the end of the Gunnison session before he takes any steps in the direction of serving his warrants.

## AN INTERESTING TEST

Convincing Experiments Show How  
the Household Pests May Con-  
vey Disease Germs.Every Footprint of the Fly Expert-  
mented With Carried Con-  
tagion With It.

Lafayette, Ind., April 13.—Professor Severance Burrage of Purdue university, has demonstrated that typhoid fever is carried by flies much in the same manner as malaria is carried by mosquitoes. The fly does not have the power of inoculating the victim with the typhoid fever, as does the long-billed mosquito, but Prof. Burrage's experiments show that the typhoid fever germs are carried from one place to another by flies, and when carried to the proper conditions multiplication is speedy, making a formerly healthy place strongly polluted.

The fact was proved by Prof. Burrage by forcing a fly that had been in typhoid fever matter to walk half an hour later through the proper culture media. In every footprint of the fly after the germs had had time to develop, large colonies of typhoid fever organisms were found. Prof. Burrage has photographs of several culture plates showing this growth.

## TO PLOW UP WHEAT LAND

Crops So Poor That Many Farmers  
Will Not Harvest It.

Indianapolis, April 13.—Much of the land that was planted in wheat last fall will be plowed up and planted in other crops on account of the failure of wheat this year. Reports from the township assessors that are coming to State Statistician Johnson show that from one-fourth to one-half the wheat acreage will be abandoned that the farmer may cover his losses in other grains. So poor is the wheat crop in some localities that the yields will not be more than 10 per cent of the normal.

Reports from 297 townships out of 1,015 townships, and 87 out of 92 counties, show that there is little hope for the wheat this year. Out of 65 counties, 153 townships show a condition indicating a harvest of 60 per cent of the normal. Seventy-seven townships out of 50 counties show a harvest of 70 per cent, and 47 townships out of 47 counties, a harvest of 80 per cent. Only eleven townships and eleven counties show the condition to be good.

## Early Settlement Predicted.

Terre Haute, Ind., April 13.—The negotiations between the scale committees of the United Mine Workers and the mine operators of the state are now believed to be well along toward settlement and the announcement of an agreement is expected soon. The operators broke off all negotiations last week because the men refused to work pending the agreement. The miners' officers then urged the men to go back, and they did so, although reluctantly. Every mine in the state is now running and will continue at work until the committee makes announcement of the result of its deliberations.

## Mail Clerk's Suicide.

Fort Wayne, Ind., April 13.—News has been received here of the suicide of William W. Cook, in Chicago. He is a Fort Wayne man, and was formerly employed as a mail clerk in this city, and later as a railway mail clerk, running between Chicago and Cleveland. Despondency, due to ill-health, is supposed to have been the cause. He shot himself twice in the breast, dying instantly.

## In a Perilous Position.

Anderson, Ind., April 13.—While he was walking on railway tracks in North Anderson Ernest Gooding caught his foot in a switch frog and it was held so firmly that he could not extricate himself. Gooding heard a train approaching, and he was frantic from fright and pain when Joseph Morgan, a factory employe, came to his rescue and released him barely in time.

## Climbed Fence With Gun.

Brazil, Ind., April 13.—David Skelton, a farmer of Cass township, was fatally injured by the accidental discharge of a shotgun in the hands of Ray Vaughn, another farmer, while hunting. While climbing over a fence the gun which Vaughn carried was discharged by the trigger catching on a wire, and the charge took effect in Skelton's back.

## The Deadly Line Shaft.

Fort Wayne, Ind., April 13.—Felix Gladbach, an eighteen-year-old boy employed in the Berghoff brewery, was killed as the result of an accident. He fell upon a line shaft and was dragged into a wheel, which was turning at the rate of 180 revolutions a minute. Both of his legs were torn off and he died two hours later in the hospital.

## Drunken Quarrel Ends Tragically.

Madison, Ind., April 13.—George Tomlinson, near this city, was shot and killed by Granville Raiser in a drunken quarrel at Carrollton, Ky.

## New Chwang Panic-Stricken.

New Chwang, April 13.—Last night a pilot's fare was mistaken for the lights of a Japanese fleet, and the Russians fired and sank the junk with thirty-five hands, besides killing three persons and wounding seven in another junk. The native population is panic-stricken and leaving the town.

## Ready to Oppose Japs.

Seoul, April 13.—Japanese advices from northern Korea state that the Russians have strongly fortified Chou Tien Cheng, a walled town on the Manchurian side of the Yalu river about ten miles north of Antung. It is estimated that there are 20,000 Russians of all arms at Antung ready to oppose the Japanese crossing.

## A MISTRIAL

Jury in the Neely Case Could Not  
Agree.

New York, April 13.—The jury has disagreed in the action brought by the United States against Charles F. W. Neely, former director of finance of the postoffices of Cuba, in which an attempt was made to officially fix the amount of Neely's alleged peculations between January and May, 1900.

Judge Lacombe, sitting in the U. S. circuit court, where the suit was tried, made several efforts to get the jury to agree but failed, and discharged them after being assured by the foreman and several of the jurymen that an agreement was impossible. The attorneys for the government contended that by documentary evidence they had shown that Neely's peculations during the three months mentioned amounted to about \$45,000. The attorney for Neely argued that the Cuban act of amnesty freed his client from all criminal and civil liabilities. Special Attorney General Jones said the government would retry the case at once.

## SPANISH PREMIER STABBED

Anarchist at Barcelona Attempts As-  
sassination.

Barcelona, April 13.—Premier Maura of Spain was attacked and wounded by a man armed with a dagger, while entering the grounds of the palace. His assailant was at once arrested. A semi-official report of the attack on Premier Maura was issued, according to which the assailant held concealed a kitchen knife, with which he stabbed the premier, but the force of the blow was broken and its direction diverted by the heavy lace on the minister's coat, resulting in only a slight scratch under the sixth rib. A doctor attached to King Alfonso's suite examined the premier and prescribed a few hours' rest. His majesty sent a messenger to inquire concerning the attack and as to the prime minister's condition.

Joaquin Miguel Artao, the assailant, was employed as a domestic. He is an anarchist and when arrested attempted suicide by dashing his head against the wall.

## BATTLE IN COURT

The Northern Pacific Fight Is On at  
St. Paul.

St. Paul, April 13.—A great legal battle by corporation lawyers representing two of the wealthiest sets of corporate interests in the United States, is being waged in the United States district court here before Judges Sanborn, Vandevanter, Hook and Thayer. This action is based on a motion presented to the court by E. H. Harriman et al., for leave to file an intervening petition for the purpose of showing why the Northern Securities company's officials should not carry out a plan of distribution of the assets of the recently declared illegal Northern Securities company in a manner alleged to be inimical to the interests of Harriman and Pierce.

## Blocking a Murderer's Refuge.

Washington, April 13.—Mr. Leischman informs the department of state that in obedience to its instructions he has requested the imperial Ottoman government to exert every possible means to prevent an asylum being given to the murderer of Missionary Laboree in Turkey. Mr. Leischman also has conferred with some of his colleagues informally for the purpose of securing similar action on their part.

## Charged With Wife Murder.

Benton Harbor, Mich., April 13.—Thomas Payne, aged seventy-five, a wealthy farmer eighteen miles south of here, is under arrest, charged with murdering his wife by shooting her in the heart. The murdered woman was thirty-eight years of age and was Payne's second wife.

## HOW THEY STAND

Strength of Each District in Republi-  
can State Convention.

Indianapolis, Apr. 13.—The strength of each district in the Republican state convention has been reduced to the following figures: First, 102; Second, 102; Third, 84; Fourth, 98; Fifth, 120; Sixth, 119; Seventh, 124; Eighth, 134; Ninth, 132; Tenth, 132; Eleventh, 121; Twelfth, 98; Thirteenth, 122. The Seventh, Tenth, Eleventh and Twelfth have candidates for governor; the Fourth, Sixth and Eighth candidates for lieutenant governor; the Third, Fourth and Fifth candidates for supreme judge; the Seventh, Tenth and Eleventh candidates for statisticians; the Third, Sixth, Ninth and Fifth candidates for reporter of the supreme and appellate courts; the Second for state treasurer; the Ninth for state auditor; the Thirteenth for attorney general, and the Sixth for superintendent of public instruction. The First is the only district that will not present a candidate for something.

According to an estimate made today by Chairman O'Brien over 800 delegates have already been selected to the state convention May 12, and that less than 100 are for W. Randolph Hearst. Over at the Hearst headquarters at the Claypool hotel a far different estimate is presented. His representatives declare that they are breaking even and that they expect to do better right along. There will be 1,847 delegates in the Democratic convention, which is more than the Republicans will have. The Republican convention will have 1,488 delegates. The apportionment was the same in both calls, but the Democrats selected their delegates according to the vote of 1900, while the Republicans are going according to the vote of 1902, an off year when it was much below normal. The estimate of O'Brien that over 800 delegates have been selected is surprising, as it was the general supposition that less than half that number had been named.

The intimate friends of Jerome Herff of Peru, the well-known Democratic politician who ran twice for state treasurer, were considerably amused at a report unwittingly started by a correspondent here that he will be a delegate on the Hearst slate in the Eleventh district to the national convention. Herff is a candidate for delegate, and it is said that he will be elected, but he is an out-and-out Parker man. He became a candidate before there was any talk of a fight between the Hearst and Parker forces, but he has made no secret of his preferences and the fact that he was unintentionally mentioned as a Hearst man has given his friends an opportunity to make it very interesting for him. It is said that B. F. Louthain of Logansport will be the other Parker delegate in the Eleventh district.

## KURTZ.

The mumps are getting in our midst. Elder G. M. Shuts preached Saturday night and Sunday and Sunday night Rev. Smith of the M. E. church preached while three other preachers listened to him.

George Hattabaugh of Washington county came over Sunday and returned home Tuesday. His sister, Annie Kennedy and two children accompanied him home for a short visit.

The Kurtz Stays Company are getting along slow with the machinery and other work.

Peter Ayres and son Oscar, came down from Mooney Sunday and took the train for Coxton and returned Sunday night.

Oats sowing seems to be a slow go now as the showers are numerous and sometimes a snow storm gets mixed in with the rain and it all wets.

John Mohr expects to return home to Jascoville about the last of this week, after spending a week or two with relatives and friends.

Ira Fleetwood had his store recovered last week. He don't need his umbrella in the store now when it rains.

John D. Womack will return to Jascoville in the near future to work this summer.

Monday April 11 seemed to be moving day here as some 5 or 8 persons moved that day.

Wm. Jones of Mooney, was in town Monday with saw, square and hammer ready to do some carpenter work but owing to the cloudy weather he returned home for a few days.

Wm. Armbruster has been very sick for a few days but is getting better now.

Villorous Wray was in town Monday on business.

## RUN DOWN AND NERVOUS.

Vinol Completely Restored Mrs. Burns' Health.

The W. F. Peter Drug Co., Agree to Return Money if Vinol Fails.

"Many people right here in Seymour are all run down, hardly able to drag about, don't know what ails them. This condition is probably caused by a cold, or cough, which is hard to cure, overworked or too close confinement to business. Such people need Vinol," said Mr. Peter of the W. F. Peter Drug Co., and the following letter is only one of many which we are constantly receiving showing what Vinol will do.

Mrs. W. T. Burns, of Memphis, Tenn., who is national press correspondent of the W. R. O., writes: "Last winter I caught a severe cold which it seemed impossible for me to get rid of. I became much run down, lost my appetite and flesh and felt nervous and irritable. Vinol was recommended, and it certainly worked wonders for me; it increased my appetite, cured my indigestion, cough and nervousness, and I sleep soundly. I consider Vinol a wonderful remedy." Vinol cures such conditions because

MRS. W. T. BURNS.

is it the only preparation in the world that contains every one of the fifty odd medicinal curative elements found in fresh cods' livers and without one drop of useless oil, which characterizes old-fashioned cod liver oil and emulsions. It imparts in a natural manner strength and vigor to every organ of the body, aids digestion and makes rich, red blood.

Vinol is not a patent medicine, everything is printed on the bottle; it contains iron, and in a highly concentrated form, all of the vitalizing properties contained in cod liver oil. It is delicious, and the weakest stomach can retain it.

We ask every run down, nervous, debilitated, aged or weak person in Seymour and every person suffering from stubborn colds, hanging-on coughs, bronchitis or incipient consumption to try Vinol on our guarantee. It costs nothing if it fails to give satisfaction. W. F. Peter Drug Co.

## FREETOWN.

Mrs. Lulu Douglass, who has been in Belmontville for sometime came home Thursday.

S. J. Cross, of Henryville, came here Wednesday and returned home Thursday.

Mrs. Mattie Cross, Mrs. Mary Culbertson and Mrs. Anna Manuel went to Seymour Thursday to attend a meeting.

Miss Roxie Chute went to Seymour Thursday on business.

## COMMITTEE OF INQUIRY

Will Look Into the Red Cross Squabble.

Washington, April 13.—The books and accounts of the Red Cross society will be taken to the United States capitol on Thursday, where they will be examined by a committee of inquiry appointed to look into the affairs of the society. The committee then will engage an expert accountant to examine the books and report to the committee. Counsel for the remonstrants in the Red Cross controversy have been asked to submit a list of witnesses and what they expect to prove by each. With all this matter before the committee it will determine the course it shall take in the effort to straighten out the trouble in the society.

## Negro Boy's Crime.

Kansas City, April 13.—Roy Martin, aged seventeen years, a high school boy of Kansas City, Kan., was shot and killed last night by a negro boy named Gregory. Martin with his schoolmates was playing ball when Gregory and other negro boys made insulting remarks to the white boys. The white boys resented this and Gregory drew a revolver and fired into the crowd of white boys, sending a bullet through Martin's heart.

Indiana Grand Lodge A. O. U. W. Fort Wayne, Ind., April 13.—The 21st biennial session of the grand lodge of Indiana, Ancient Order of United Workmen, is in session in this city. Grand Master T. D. ## A Continual Strain.

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower, 25c; regular size, 75c. At all druggists.

### In Memorium.

Once more our lodge is reminded of the frailty of all things earthly and we realize anew that our days on the earth are as a shadow; that man that is born of woman must die. The Finger of Death has touched our beloved brother George W. Walkup and he has fallen asleep. His day's work is done and he rests in peace. For three score years he walked upright among his fellow men and held at all times the respect of the communities in which he lived. He was a faithful Odd Fellow, a kind and loving husband and father, and a man of sterling integrity and of recognized worth in a community. Therefore be it

RESOLVED, That by the death of Brother Walkup we have lost a worthy and respected brother and the community in which he lived has lost one of its best citizens; that we extend to the family of the departed brother our sincere sympathy in this, their dark hour of bereavement, and that a copy of these resolutions be sent to them, and a copy be published in each of the local papers.

OREN O. SWAILS,  
HENRY C. BRETHAUER,  
CHARLES ROEGER,  
Committee.

### Two Cards.

Having sold my interests in the Fair store to my former partner, Mr. Geo. Tormohlen, I wish to thank the public for the favors shown me and hope you will give the new firm the support and encouragement given in the past.

Respectfully,

AARON COHN.

Having bought out the interests of my former partner, Mr. Aaron Cohn, I will continue the business known as The Fair Store. I wish to thank the public for their favors shown me in the past and it shall be my aim in the future to please and satisfy all of my customers and I trust my efforts will merit your continued patronage. I shall always try to have the new and up-to-date goods on hand and consider it a pleasure to show goods.

Respectfully,

GEO. TORMOHLEN.

### Its Cause Enough if you Have Trouble

With your eyes, no matter how small, to have them examined, especially since you can have the work done free of charge, by capable conscientious people. Little troubles grow to larger ones, and what you might consider of little consequence with your eyes while in good health, could not be overcome, when the physical condition has been reduced to, or below normal by sickness. It is there, you will wonder what has happened to your eyes—this is what happens to the child's eyes, after going through a spell of the measles, scarlet fever, diphtheria, etc.

The cause is due to an error of refraction, and can be remedied by lenses and lenses only. We know how to do this work, it's a science with us, and that is why we guarantee results, or refund the money. Every courtesy extended. Mrs. Hargch constantly present, ladies may come unattended.

### Sunday School Convention.

The Redding Township Sunday School Convention held an interesting and profitable session at Rockford Saturday, April 9, 1904.

The first subject on the program, "The Measures of Success in Sunday School Work" was given by Miss Maggie Doerr. She said that the success of our work could not be measured in this life. That the success of the Sunday school depended largely upon the teacher, and that no true teacher was satisfied until all her class was won for Jesus. The subject was then discussed by the convention. "The Sunday School as a Guide Board" was presented by Rev. D. T. Hall followed by W. H. Rapp, in which was given various ways in which the Sunday school guided the children to the heavenly home.

The subject "What the Sunday school can do for the Home" and "What the Home can do for Sunday Schools" were discussed by the convention owing to the absence of R. O. Judd and J. J. McClintock. After this Miss Amelia Belkman read a very interesting paper upon "What Both Home and Sunday School can do for the Child." By bringing the child into the Sunday school lays the foundation for a useful Christian life.

The following officers were re-elected: President, J. Adam Fox; vice president, R. O. Judd; secretary, Miss Oma Montgomery; treasurer, Miss Sarah Baldwin; superintendent of home class, Mrs. R. R. Short.

In the evening we were favored by an address on "Our Three Story Dwelling" by Rev. C. E. Severinghaus which was highly enjoyed.

### Missionary Meeting.

The Seymour District Woman's Home Missionary Society will hold their district convention in the First M. E. church on Thursday. An all day program commencing at 9:30 a. m. An installation of officers, a sacramental and consecration service will be held in the afternoon. Rev. G. D. Wolfe, of Columbus, will lecture at 7:30 p. m. A cordial welcome to all.

### \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that Science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucus surfaces of the system, thereby destroying the foundation of the disease, and give the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

# SURE INDICATIONS OF BAD BLOOD

## OLD SORES, ULCERS, ABSCESSSES

The best evidence of a bad condition of the blood and unhealthy state of the system, is an old festering sore, running ulcer, or abscess. They show the bodily impurities are not passing out through the proper channels, but are left in the system to clog and poison the blood. So thoroughly does the poison permeate the system that every little scratch, cut or bruise inflames and festers. Everything about an old sore or ulcer suggests disease. They affect the general health, they require constant attention, and are a source of anxiety and trouble all the time, and in some cases highly offensive.

There is danger, too, of these places becoming cancerous if not treated promptly and in the right way. Washes, salves and ointments are good for external use, but they can't stop the discharge or change the condition of the blood, and for this reason the sore never heals permanently.

Not until the blood is purged of impurities and the system cleansed of all harmful substances should the ulcer heal, or the effect upon the system might prove disastrous. S. S. S. goes into the circulation and searches out and removes the cause of the old sore and invigorates and builds up the polluted, sluggish blood again, and as the poisonous matter is driven from the system the sore begins to heal, new flesh forms and the place is soon covered over with fresh skin and the sore is gone for all time. Where the constitution is debilitated from the effects of chronic sores, ulcers, abscesses, carbuncles, boils or other severe skin eruptions, S. S. S. will build it up again and stimulate and strengthen all parts of the system. S. S. S. contains no strong minerals, but is guaranteed entirely vegetable. It is unequalled as a Blood Purifier and invigorating tonic. Do not depend upon local remedies alone. Get your blood right, and as it forces out the poison the sore must heal, because nothing is left in the system for it to feed upon. Write us should you desire medical advice, which is given without charge.

No. 2807 Locust Street, St. Louis, Mo., March 29, 1903.

I was a victim of sleeplessness and extreme nervousness for eighteen months, unable to get a proper night's rest and feeling tired and worn out continually. I was easily irritated and hysterical at the slightest provocation, but Wine of Cardui gave me great relief. Within a week after I began using it I had my first good night's rest that I had had for months. My appetite was soon restored, my general system toned up and nervousness became a thing of the past. I am so pleased to acknowledge the great curative merit of your health giving medicine and gladly endorse it.

## WINE of CARDUI

We want to call your attention to the complete and immediate relief Mrs. Best secured by taking Wine of Cardui. Within a week after she began taking Wine of Cardui, Mrs. Best had her first good night's rest for eighteen months. Her restlessness was caused by nervousness and Wine of Cardui, as the best menstrual regulator, has no superior in the world as a medicine to soothe a woman's nerves. Nervousness and hysteria are warnings of the approach of insanity and if relief is not secured the end can only be the asylum or the grave. With such an outlook as this before her, no suffering woman can reasonably refuse to give Wine of Cardui a trial. It brings a cure that thousands of women have sought for in vain. Will you secure a bottle of Wine of Cardui today and start treatment? All druggists sell \$1.00 bottles Wine of Cardui.

# The RUSSIANS

Their Lust For Land--The Empire's Mission--An Autocrat Ruled by a Bureaucracy--Always Preparing For War--The Revolutionary Spirit Is Rampant

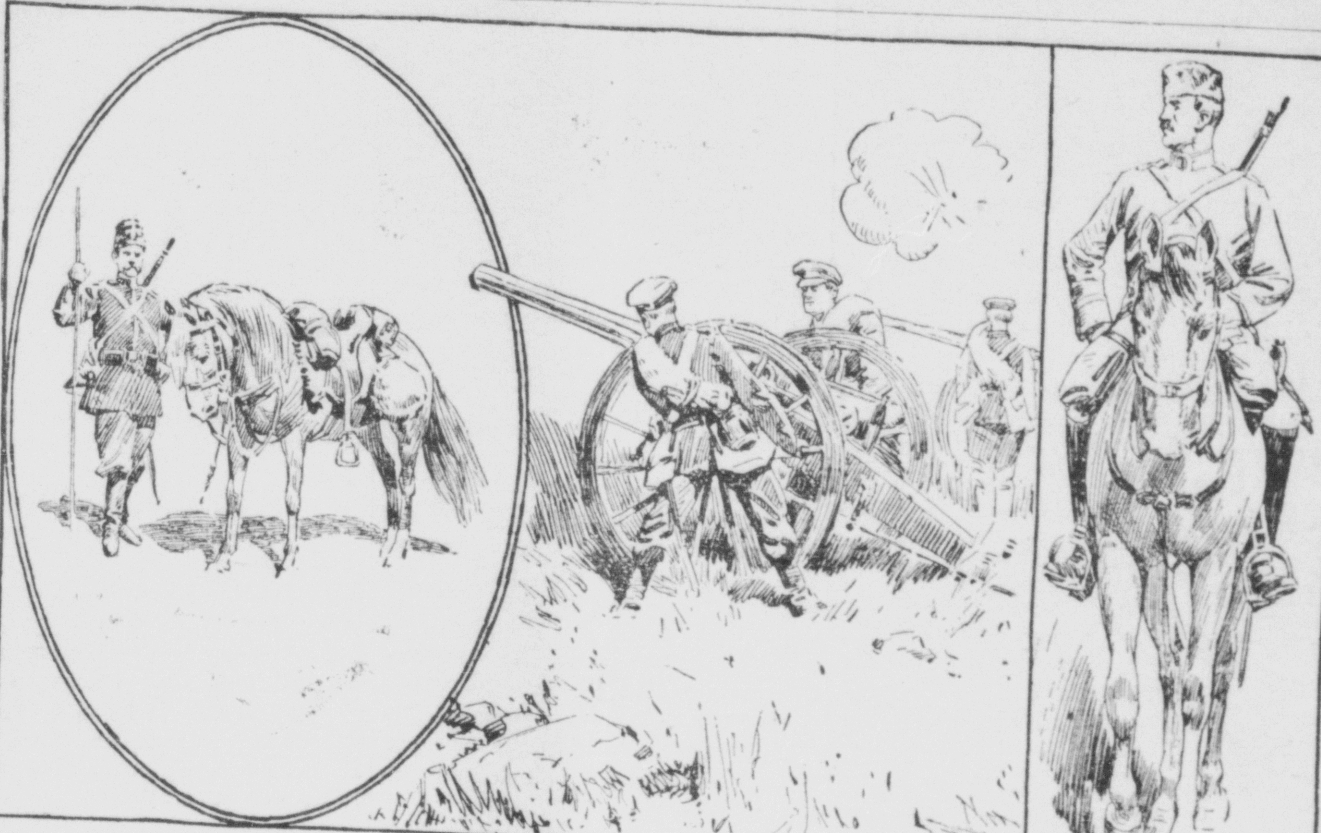

CZARS may come and czars may go, but Russia's policy is changeless. That is why a naturally peaceful emperor of supposedly automatic powers who was committed to a pacific reign by his suggestion of The Hague arbitration tribunal finds himself at war with Japan. Beyond a doubt the war is a genuine grief to Nicholas II. He did not desire it, he endeavored to prevent it, but even the autocrat of all the Russias was powerless when he stood barring the pathway of the Russian advance. Peace? Why, of course the czar wanted it, and so did the potent bureaucracy that sways him, provided peace did not interfere with Russia's absorption of Manchuria and her acquisition of Port Arthur, the long coveted ice free port on the Pacific.

His Lust For Land.  
The Russian has an insatiable appetite for land. He has absorbed Poland, Finland, part of Turkey and wide stretches of Asia. Manchuria is his

was separated by water. There is no nation so unified, so organic, and this unity is not only governmental, but geographic. Whatever she takes she assimilates. It may be never so much at enmity to her, she makes it Russian. This process may require centuries. Her purpose is longer. She may leave the captured territory the fiction of a separate government, even permit it to remain ostensibly under the control of some other great power. It suffices that she has gained a foothold. This she never relinquishes, but hides her time, gaining larger and larger concessions until at last the captured province is a portion of her ever advancing empire. Thus she spread eastward from Moscow to the Ural mountains. Thus she moved onward into Asia and annexed Siberia. Thus by struggle after struggle she took Finland from Sweden. Thus by partition after partition she absorbed the larger portion of Poland. Thus by war after war she wrested the Caucasus and Transcaucasia from Turkey. Thus by

half of those who apply. If the remainder amounts to more than the district's quota, choice is made by lot. The Conscripts.  
About 7 per cent of the male population of each district is thus taken each year. This is not the holiday affair it proves to be with our own national guard, but is rather serious business. The men are conscripted, and a wooden lock is placed on the leg of each. Amid the lamentations of relatives the conscripts are loaded into wagons and taken to the nearest recruiting station. Arriving there, each man first passes into the hands of the doctor, thence to the military barber. If successful in the medical ordeal, the top of the applicant's head is shaved; if unsuccessful, the back. The rejected candidate is truly unfortunate. He is thrust out without any clothing, his apparel dumped out after him, and he is allowed to dress in the cold. Then every soldier is privileged to kick and cuff him as a mark of contempt for his

present meal, but he is casting greedy eyes upon Korea, Persia, Afghanistan, Turkey, India and what remains of dismembered and helpless China, and unless his advance is checked now by the legions of Japan or later by those of some other power or powers his progress southward will end only at the Mediterranean, the Red sea and the Indian ocean.

The means by which this land was taken have varied. Sometimes by war, sometimes by diplomacy, sometimes by settlement, he has reached his ends. He did not hesitate at butchery if butchery were necessary. He cheerfully lied if lying would forward his purpose. He fomented internal disorders in the coveted kingdom if he thus could come in under the guise of peace-maker and take the country for his own. If it were necessary to reach his goal by indirection, then the indirect route was followed; if he was compelled to seize his prey when the other powers were not looking, such seizure was made; if he had to wait a century before achieving his object, he waited patiently and stolidly. Beaten back at one point, he reached out at others, but always and everywhere he kept in view one thing--to get the land.

The Russian Purpose.  
Russia can be compared to a kite fed from some invisible source and ever increasing in its area. Like the kite, too, it has only spread over contiguous territory. This is the peculiar difference between the Muscovite and every other conquering nation. Rome and England have taken colonies wherever they could be secured. Russia took only those adjacent. She even sold Alaska, which, though near,

crowding and fighting she conquered portions of Turkestan, Transcaspiya, Khiva and Bokhara.

Napoleon's Prophecy.  
Thus by diplomacy she gradually tightened her grip upon Manchuria until Japan sprang to arms. Who can wonder that Napoleon, who had the longest vision into the future of any man of modern times, said that Europe would ultimately become "all Cossack or all republican?" He could have added that Asia will become all Slav or all civilized.

The evident "mission" of Russia is to spread all over the world and convert everything to the temporal dominion of the czar and the spiritual dominion of the Greek church. The declared "mission" of Japan is to carry western civilization to the orient, to be the leader of the far east in the march of modern progress. In the course of events these two "missions" collided. The result was war.

In time of peace the Russian constantly prepares for war. On a peace footing the army numbers about 1,000,000 men, and each year 870,000 young men reach twenty-one and are liable to military service. In time of war the government has 3,000,000 men, half a million horses and 6,000 guns. Exemptions from entering the army are many and various. These are, first, physical disability; second, when the candidate is a breadwinner for a family; third, medical men, chemists, teachers, members of learned professions, proficient in technical studies, etc. (this applies only in times of peace, of course); fourth, those exempted because of special circumstances. All these causes serve to disqualify near

physical disability. Even with these indignities, however, the rejected are happy enough, for have they not escaped the hell of the most despotic army discipline on earth?

The total population of Russia is about 130,000,000, of whom 4,000,000 are Jews, and its area is 8,447,234 square miles, nearly three times as great as that of the United States, Alaska and all Uncle Sam's insular possessions. The holy synod of the Greek church dominates all religious affairs, and the people are very devout.

The Revolutionary Spirit.  
The legislative, judicial and executive powers are all vested in the emperor, who is assisted by a cabinet of ministers, by a council of state, by a "ruling senate" and by the holy synod. The people have little voice in the government, and there is deep seated discontent among them. Revolutionary movements are constantly under way and are sternly repressed. There is no freedom of speech, the press is muzzled constantly, and the bureaucratic hierarchy rules czar and people alike. More and more money is spent each year on education, and yet the universities are veritable hotbeds of revolution. Thousands of students and other educated men are banished every year. The revolutionary spirit is strong in the army, and on numerous occasions troops have refused to fire on rioters when ordered to do so. The present war will doubtless have somewhat of a repressive effect temporarily upon the revolutionary movement, but only a greater measure of personal liberty will satisfy the people and cause them to cease endeavoring to change the empire's form of government.
